

General Patient Information

Appointment Arrival

Patients are encouraged to arrive at least 15 minutes before scheduled appointments to complete check-in and documentation processes.

Insurance and Billing

Please bring valid identification, insurance information, and any required referral documents to your visit. Coverage details may vary by provider and service type.

Patient Portal Access

The patient portal allows secure access to appointments, test results, prescriptions, and communication with healthcare providers.

Health and Safety

Patients experiencing contagious symptoms should notify the clinic before arrival to receive appropriate guidance and precautions.

Contacting the Clinic

For non-emergency questions, patients may contact the clinic by phone or through the online portal. Medical emergencies should be directed to emergency services.
